Life Healthcare

- A leading provider of private healthcare, listed on the Johannesburg Stock Exchange (JSE) and a key roleplayer in the South African healthcare sector. Our primary business is private acute hospital care. With 64 healthcare facilities, our group has one of the most extensive footprints in southern Africa.
- Employs more than 13 000 permanent staff
- Strongly focused on staff training and development
- Widely respected for its ethical approach to business
- Other group businesses include:

Employee Health Solutions – employee health and wellness services, Life Occupational Health and Careways, provide proactive solutions to minimise employee health risks aimed at reducing healthcare costs and improving employee productivity.

Life Esidimeni – provision of acute and long term hospitalisation services to public sector patients through a partnership with both provincial health and social development departments.

our vision

To be a market leading, international, diversified, healthcare provider.
