

**Pharmacy internship opportunities
2019**

Life Healthcare

- A leading provider of private healthcare, listed on the Johannesburg Stock Exchange (JSE) and a key roleplayer in the South African healthcare sector. Our primary business is private acute hospital care. With 65 healthcare facilities, our group has one of the most extensive footprints in southern Africa.
- Employs more than 13 000 permanent staff
- Strongly focused on staff training and development
- Widely respected for its ethical approach to business
- Other group businesses include:

Employee Health Solutions – Life Employee Health Solutions offer holistic outsourced employee health and wellness services that perfectly balance occupational health with employee wellness. This fully-integrated service manages the complete employee health and wellness cycle through standardised quality systems, occupational health services, wellness interventions, health education and clinical protocols for companies and institutions across both the public and private sectors.

Life Esidimeni – Life Esidimeni (meaning ‘place of dignity’) provides long term care and substance abuse treatment services to public sector patients for the Departments of Health and Social Development.

our vision

To be a market leading, international, diversified, healthcare provider.
