

## Life RISK Solution helps businesses re-open safely during COVID-19

- Life Employee Health Solutions, a division of the Life Healthcare Group, has developed a risk management tool to help businesses re-open safely.
- The tool – Life RISK Solution – offers an interactive health risk monitoring platform for employers and personalised clinical and wellbeing support for employees.
- Life RISK Solution helps businesses to limit the spread of COVID-19 infection in their workplace and to reduce potential risks to employees and customers.

With businesses across South Africa preparing to resume full operations – the biggest question for most employers is how to be **COVID-compliant** to limit the spread of infection in their workplace and keep their employees safe and healthy.

### The Life RISK Solution – affordable, personalised risk management

We've introduced a cost-effective product to support businesses in reducing COVID-19 risk in their workplace. Our tool is easy to implement, regardless of industry or number of employees, and is based on sound clinical and data privacy guidelines.

Here's how it works in 3 simple steps:

#### DAILY SYMPTOM CHECKER WEB-BASED APP

- Employees track their health metrics daily on our user-friendly app and get access to digital support including self-care resources.

#### RISK TRACKER DASHBOARD AND REPORTING TOOL

- Employers monitor the healthcare journeys of at-risk and exposed employees, and track potential infection spread within their business.

#### IMMEDIATE INTERVENTIONS AND SUPPORT

- Qualified teams implement clinical interventions and psychosocial support based on real-time risk alerts and infection control data.

“Effective management of COVID-19 risk in the workplace demands specialist knowledge and an in-depth understanding of industry trends, clinical guidelines, rapidly changing policies and compliance requirements. It's critical for employers to have a trusted partner to help them navigate this.”

- Tanya Little, Group Operations Executive

### Benefits of partnering with us

Life Employee Health Solutions has 3 decades of experience in health risk management. We currently deliver wellness services to 81 employer clients and 383 082 employees across all industries. We combine this extensive experience with the latest in clinical and digital innovation to help any business return to the workplace and operate safely and sustainably.
