

Moving oncology care forward so that you can look forward to life's moments

Chemotherapy: Questions
to ask your specialist

Chemotherapy: Questions to ask your specialist

What preparation and support do I need before my treatment starts?

1 What chemotherapy regime will I be getting?

2 How often and for how long will each chemotherapy agent be given?

3 Where will I get the treatments? Will I need to be admitted?

4 How will I receive the treatments? Will I need a port?

5 How long will each treatment session take?

6 Can you describe what my first treatment will be like?

Chemotherapy: Questions to ask your specialist

7 Will I see you before each treatment session?

8 Am I allowed to bring someone with me to the chemotherapy sessions?

What do I need to know about managing side-effects?

9 Will I need someone to drive me home after each session?

10 What side-effects am I likely to have during the treatment?

11 What side-effects am I likely to have at home after the treatment?

12 Are there side-effects I should let you know about right away?

Chemotherapy: Questions to ask your specialist

13 Will I lose my hair with this chemotherapy?

14 Who should I contact if I am worried about my side-effects?

What ongoing support can help me along my treatment journey?

15 What type of caregiving will I need at home?

16 Will I need to be off work during the chemotherapy treatment?

17 Can I exercise during the chemotherapy treatment? What type of exercise am I allowed to do?

18 How will we know that the chemotherapy is working?
