technology*

# Advanced radiotherapy treatment using state-of-the-art technology

Every patient's treatment journey is unique. At Life Oncology, we offer oncology care based on your individual care needs.

We are committed to providing access to the highest quality radiotherapy treatments to our patients. Through our commitment to value-based care and technology-driven solutions, we deliver targeted outcomes.

## Our advanced technology includes:

VersaHD Treatment unit with iGuide System

MOSAIQ Oncology Information Systems

Monaco planning system

Remote high dose rate (HDR) afterloader

Image guided radiotherapy (IGRT) for accurate positioning

3D Conformal radiotherapy (RT)

Low dose rate (LDR) prostate brachytherapy

Volumetric modulated arc therapy (VMAT)
